

## Sophisticated FIMO gems

### What's that lovely sparkle and shine?

This delicately shimmering rose quartz disc provides a stunning platform for other pendants and is the key piece of this jewellery creation. It makes a real eye-catcher in combination with the smaller pendant complete with glittering rhinestone. The new, realistic-looking FIMO gemstone colours make it possible for you too to become a jewellery designer without any trouble at all. Whether rose quartz or citrine, the wide range of shades available means you can find the right gemstone colour whatever your taste. Even FIMO novices can create impressive pieces of jewellery - both quickly and easily.

You can find our products in well-stocked sales outlets. Should you have any queries, please call our hotline: +49 (0)911 9365-888.

**Have fun crafting!**

### FIMO Shopping / material list

## Sophisticated FIMO gems

Space for your notes

### You will need these STAEDTLER articles:

Product	Colour	Art.no.	Quantity	✓

### You will also require:

Smooth work surface (glass or ceramic), round pastry cutter Ø 4-5 cm, small round cutter or pen cap Ø 1-1.5 cm, knitting needle or skewer, ovenproof glass rhinestones, caoutchouc necklace with clasp, two choker eyelets in silver

# Instructions for Sophisticated FIMO gems

1 Knead two strips of rose quartz until soft and then roll to a ball in your hands. Use your hand to flatten the ball before rolling it out with the acrylic roller to an even, approx. 4 mm thick sheet.

2 Cut out a circle using the large round cutter and remove the surplus. Now make a hole for the eyelet using the small cutter or a pen cap.

Leave about 4 mm between the edge of the circle and the hole.

3 Roll one strip of Raspberry to a ball too and roll it out to an even, approx. 4 mm thick sheet.

## Instructions for Sophisticated FIMO gems

Spray the lace trim texture sheet with a little water and place the embossed side face down onto the sheet of FIMO classic.

Press on gently with your fingers first and then roll over it with the acrylic roller applying a little pressure as you do so.

Peel the texture sheet off and cut out a little flower using the small metal cutter.

Put the surplus FIMO to one side.

Sprinkle a little silver powder onto the work surface.

Dip your finger into the powder and brush over the elevated areas of the flower with it.

## Instructions for Sophisticated FIMO gems

Use a knitting needle to make a hole for the eyelet. Position the rhinestone and press it firmly into the FIMO with the knitting needle.

Harden both items in the oven for 30 minutes at 110°C. Leave to cool. Working from fine to microfine, use the sanding sponges to polish the round disc.

This will give it a lovely shine. Add a thin coat of gloss varnish to the flower to prevent the powder from rubbing off. Finish off by adding the choker eyelets and thread the pendants onto the caoutchouc necklace.
