

## Office accessories in a floral design

Keyboard, monitor and lots of notes and bits of paper - does your desk look like that too? Put an end to dreariness and brighten your desk up with some flowers.

FIMO soft in the millefiori technique was used to make these office accessories look beautiful. The different brightly coloured flower motifs add a feel-good touch to any workplace. And the best thing about it is: these colourful FIMO flowers never need watering!

### FIMO Shopping / material list

#### Office accessories

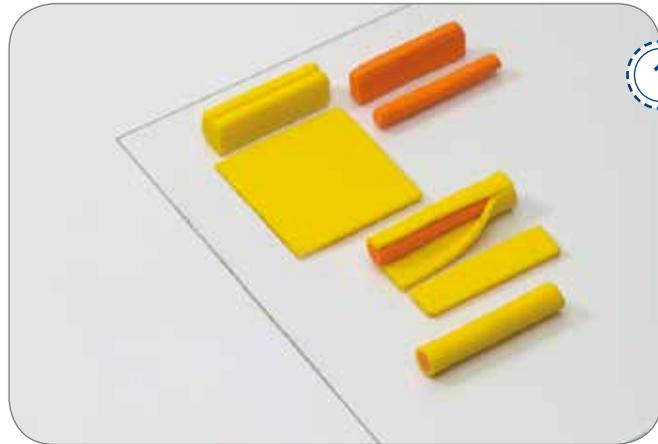

Space for your notes

#### You will need these STAEDTLER articles:

Product	Colour	Art. no.	Quantity	✓
FIMO soft	white	8020-0	1	
	tangerine	8020-42	1	
	lemon	8020-10	1	
	plum	8020-63	1	
Other colours if required				
clay machine	--	8704 01	1	
blade-set	--	8700 04	1	
acrylic roller	--	8700 05	1	
gloss varnish	--	8703 01 BK	1	

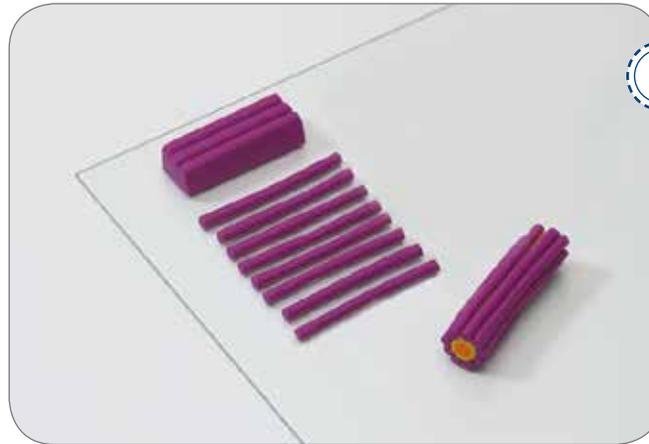

**You will also require:** Smooth work surface (glass or ceramic), different office utensils for covering (preferably ovenproof)

## Instructions for office accessories in a floral design

1 Make a sausage out of one strip of tangerine-coloured FIMO soft. Then use the acrylic roller to roll out the lemon FIMO soft to a uniformly thick sheet.

Wrap the sheet of yellow around the sausage and cut it with the blade so that the edges meet exactly at the join and do not overlap

2 Roll three strips of plum to a thin string approx. 4 mm in diameter. Cut the string into 8 pieces the length of the lemon-tangerine cane and place them all around the cane.

3 Roll four strips of white FIMO soft to an approx. 5 mm thick sheet the same width as the pattern cane. Tilt the blade to cut trapezium-shaped strips off the sheet.

Press these triangular strips exactly between the plum-coloured lengths of string. Then cover everything with a white sheet of FIMO.

Roll the millefiori cane carefully to make it thinner until the flower is of the desired size.

**Tip:**

Unfinished items and left-over bits of material can be stored in a sealed plastic bag or airtight container, e.g. a plastic box or jar.

## Instructions for office accessories in a floral design

4

Create more millefiori canes in different colour combinations. When choosing your colours, always ensure that the background colour is white. Now cut thin slices off all of the canes and place them on a white sheet of FIMO.

Roll over everything with the acrylic roller until you are left with a smooth and even surface.

5

Next, cover the ovenproof accessories with the patterned sheet. For plastic items, e.g. the paper clip pot, you need to make a template out of paper and cut the shape out.

Now place all of the FIMO items in the oven for half an hour at 110°C to harden. For a wonderful shiny finish, add a thin coat of FIMO gloss varnish to the items once they are cool.

Glue the FIMO elements onto the office utensils where necessary.
